01 PROFESSIONAL SUMMARY

Full-Stack Developer with hands-on experience building web and mobile applications using modern JavaScript frameworks and cloud tools. Skilled in developing complete solutions from start to finish, focusing on performance and user experience. Passionate about using AI tools and data-driven methods to make development faster and more effective in collaborative team environments.

02 TECHNICAL SKILLS

LANGUAGES	JavaScript, TypeScript, Java, SQL
WEB & FRAMEWORKS	React.js, Next.js, Node.js, Express.js, Redux, React Native, Angular, .NET
CLOUD / DEVOPS	AWS (EC2, Lambda, S3), Docker, Git, GitHub
DATABASES	MongoDB, PostgreSQL, Supabase, Appwrite, Firebase
TOOLS & PLATFORMS	Jira, Postman, VS Code, GitHub Copilot, n8n, WebSockets, WebRTC
PRACTICES	REST APIs, Unit Testing, Performance Optimization, Agile, Automations, OAuth 2.0

03 WORK EXPERIENCE

Software Developer Intern — Azilen Technologies, Ahmedabad

Jan 2026 — Jun 2026

- Applied clean-code principles and AI-assisted workflows (GitHub Copilot, structured prompt engineering) to accelerate delivery across multiple concurrent projects.
- Authored end-to-end technical documentation for a multi-module legacy background-check platform inactive for years, reviving the project and enabling seamless onboarding.
- Migrated the candidate module from .NET Framework 4.6 to a modern .NET backend with Angular frontend and PostgreSQL — full parity with all legacy modules in 1 month, the fastest turnaround in the revival timeline.
- Delivered iterative, responsive Angular UI enhancements aligned with evolving design and product requirements.
- Drove OAuth 2.0 integrations — analysed third-party docs, set up developer portals, built and submitted OAuth apps, authored guides, and produced demo videos for external app submissions.

Software Developer Intern — Skill Software INC.

Mar 2025 — Aug 2025

- Built and deployed React Native apps with AWS (Lambda, EC2, S3), delivering smooth, responsive interfaces for iOS and Android.
- Contributed to 2 client projects under Agile workflows — sprint planning, daily standups, and code reviews.

MERN Developer — Citadel Infotech Pvt. Ltd., Rajkot

May 2024 — Jul 2024

- Built a Library Management System with the MERN stack — book, user, and transaction management.
- Designed the UI, developed backend APIs, and deployed to Vercel and Render.

04 PROJECTS

AIDynamoLearn

React · Node.js · MongoDB · Express · NLP

- AI-powered platform with a chatbot and PDF reader using vector embeddings and OpenAI APIs to query and read book content faster — cut search time by 60%.

CodeColab

React · Node.js · MongoDB · WebSockets · WebRTC

- Real-time collaborative code editor with syntax highlighting for 15+ languages, intelligent auto-suggestions, secure rooms, and WebRTC group chat for remote pair programming.

TaxSavvy

React · Node.js · MongoDB · Express · Chart.js

- Full-stack tax-planning platform with personalized recommendations and real-time insights, automating calculations across 20+ deduction categories.
- Interactive Chart.js dashboards improved user decision-making speed by 40%.

05 EDUCATION

B.Tech, Information Technology — Charusat University · CGPA 8.81/10.0

Graduation May 2026

06 CERTIFICATIONS & ACHIEVEMENTS

- DoseHACK-24 Hackathon — 2nd Runner-Up (Top 3 among 50+ teams)
- Google Cloud Certified Professional (GCCP) — Cloud Architecture & Services
- Google Foundations of Project Management — Professional Certificate
- NPTel Certifications — Data Structures (Java), DBMS, Operating Systems Fundamentals
